

*Bulgaria, represented by the Agency for Social Analyses (ASA) under direction of Dr. Lilia Dimova, is among the longest-standing members of the ISSP and has hardly ever missed participation in the coordinated surveys. The resulting accumulation of experience and competence benefits the cooperation within the ISSP massively, and we extend our sincere thanks to the ASA staff for being such reliable partners in the production of high-quality comparative survey data!*

Dr. Markus Quandt, head of the Research Data Center International Survey Programmes at GESIS Leibniz Institute for the Social Sciences, by that role also team leader for the ISSP Data Archive. Markus Quandt is involved in various comparative survey programs and data harmonization projects as researcher or advisor."
